

# Dead Horse List

If you're riding a horse and it dies.....  
Get off!

However.

- **In education we:**
- Get a stronger whip
- Change riders
- Move the horse to new location
- Ride the horse for longer periods of time
- Yell at the horse
- Get off the horse and try to hold it up
- Appoint a committee to study the horse.
- Blame the horses' parents. The problem is in the breeding
- Create an assessment and self-evaluation for measuring our riding ability.
- Increase the standards for dead horses.
- Increase the standards for dead horse riders.
- Change the standards so that the horse is no longer technically dead
- Have a "Dead Horse" Summer Institute.
- Complain about the state of horses these days.
- Declare that no horse is too dead to ride.
- Hire an external consultant to show how the dead horse can still be ridden.
- Buy a software program which is guaranteed to enhance dead horse performance and productivity.
- Increase funding (horse feed) as the horse is obviously malnourished.
- Declare that a dead horse is more cost effective than a live one.
- Identify and visit sites where they ride dead horses efficiently.
- Promote the dead horse to a position of greater responsibility.
